Sermon Notes - 06/16/2024
 Everyone is listening to someone say something. Every second of the day, we are bombarded by voices, religious leaders, media personalities, celebrities, politicians, and corporations promoting ideas, philosophies, and worldviews via the internet, social media sites, television, and radio. However, few people go to the Bible to hear what God has to say to them through His inspired Word. God's Word is His speech. The Bible is God's way of revealing His nature, character, objectives, and plans. Therefore, whenever the Word of the Lord is communicated, or we read it privately, it is our responsibility to listen to the witness of the Holy Spirit speaking through it and apply what He says for our growth, the good of others, and His glory.
